Skin care solutions

With over 20 years of medical history, **Caci** is the only safe and non-invasive, needle free alternative to Botox, Peels and Fillers.

Caci ultimate is the very first treatment system to combine micro current facial toning, crystal free microdermabrasion and LED photo rejuvenation and it is completely safe! The Caci facial is a firm favourite with many A- list celebs including Madonna and J-Lo who have their own Caci ultimate systems at home!

Who is this treatment for?

This treatment is great for both men and women aged from their early twenties upwards... Skin starts to show the signs of ageing from the age of 25...

The earlier you start the better the results!

How many treatments will I need?

For long lasting results we always recommend that you have a course of up to 10 treatments followed by a monthly maintenance treatment.

Alternatively the Caci Ultimate Facial can also be used as an amazing 'Pre Party Preparation' for a special occasion with the results lasting for up to 72 hours.

Solutions for your Skin...
Without Surgery!
